Summary

A passionate and self-motivated Python Developer with a strong foundation in programming, problem-solving, and web development. Eager to leverage technical skills in Python, Django, and database management to develop innovative software solutions. Enthusiastic about learning new technologies and contributing to dynamic and growth-oriented teams.

Skills

Programming Languages: **Python HTML C++ PHP**

Frameworks/Technologies: **Django Smarty MySQL Git**

Soft Skills: Problem-Solving ·Critical Thinking ·Time Management ·Adaptability ·Teamwork

Experience

Python Developer | Personal & Academic Projects

Developed web applications using Python and Django implementing database management with MySQL.

Built and deployed machine learning models for data analysis and predictive insights.

Implemented OpenCV for image processing, contributing to facial recognition and object detection applications.

Designed responsive web interfaces using HTML, CSS, and JavaScript to enhance user experience.

Projects

Criminal Face Detection and Crime Matching using Algorithms

It is an integrated Police Station Management, Face Detection, and Crime Matching System to advance law enforcement technology.

- Utilized Python and Django to develop the system.

Education

Chmm college for advanced studies
Master of Computer Application (MCA)   2022 - 2024

- **CGPA** 70%

University institute of technology
Bachelor of Science (BSc) in Computer Science   2021

- **CGPA** 65.87%

Training / Courses

Python Django

Arduino Programming

Web Development
